

This column has built a reputation for accomplishment that is bringing more and larger assignments than it can assume. The latest task turned over to this column came from the leaders of the local W. C. T. U. through Mayor Harry Mason. It seems that the good ladies are anxious to have the Mayor enforce the anti-spitting ordinance, which makes it an offense for a man to spit on the sidewalk. At least that is what the Mayor says the law provides. The noble grand of this column is no lawyer and hasn't time to find out for himself what the law really provides. But when it comes to interpretation of the law, it is different. That is one of the specialties of this column. So, it would seem, assuming that the Mayor has correctly stated the provisions of the anti-spitting ordinance, that it is no crime for women to spit on the sidewalks of this city. By careful process of reasoning it will be found, therefore, that the anti-spitting ordinance is violative of the Bill of Rights, and the Constitution. It is clearly class legislation, assuming, of course, that men have any class. Many of them do not, but the law cannot take cognizance of the failure of men to measure up to their birthright. In the meaning of the law, the anti-spitting ordinance is class legislation. A law which applies only to men is unenforceable, and the Mayor says the ordinance prohibits "men" from spitting on sidewalks. Another point, on which the law is subject to general demurrer, is that it has become obsolete, innocuous, and so to speak. This is a principle of law well established and recognized by all the authorities. When conditions with which a law deals no longer exist, the law itself is dead and of no effect. The Mayor says the anti-spitting ordinance was necessary when it was possible to distinguish between a woman and a girl by the length of the skirts. Women wore long skirts that lightly caressed the sidewalk with each step taken. The city passed the ordinance as a means of guarding against soiling milady's garments. The Mayor passed the buck. He is an executive officer. The postmaster of this column is a judicial officer. For the benefit of the W. C. T. U. ladies, it will be stated that it is the plain duty of the Mayor to arrest men who spit on the sidewalk, notwithstanding the law is unconstitutional. The Mayor is in politics and needs the votes of the ladies. If he can't enforce the law he can provide municipal spittoons for his constituents. The ramrod of this column is not running for office and can afford to be honest.

The statistician of this column is feeling better today. He is on the mailing list of the Congressman from this district, but, of course, this is campaign year and Congressmen are mindful of their constituents in campaign years. The evidence, though, that this philosopher is known to his Congressman is too voluminous to permit of the suggestion that the recurrence of election year is the thing that prompted the remembrance which came today from Congressman Guinn Williams. The evidence is 1252 pages of a neatly bound and profusely illustrated volume, though not quite so profusely illustrated as in certain editions of a Texas History, in which some of our local celebrities figured a few years ago. The book received by Home Town from Congressman Williams is called the Agriculture Yearbook for 1924. It is the printed and bound copy of the report of the Secretary of Agriculture to the President of the United States. It is safe to say, however, that the printers and proofreaders in the Government printing office are the only persons who ever did or ever will read the book. Statistics are as dry as a missionary sermon. The book is appreciated, but Congressman Williams would have ingratiated himself with this particular constituent with a cigar, far more than he would by sending a book of statistics.

Since yesterday's announcement in this column that Mr. Everett True was being urged to make the race for Mayor in the April election, considerable interest has been manifested in the race. The champion of the common people has again declined to talk for publication, though he admitted he was considering the matter, and will no doubt reach an early decision. Mr. True was visibly affected when he read in yesterday's Home Town column that Bud Daniel has come out for him. His usually stern countenance softened perceptibly, and he was evidently pleased with Mr. Daniel's statement. He said, however, he was fearful that Mr. Daniel's support may have the effect of drawing him into the fish controversy with C. S. McCulloch. Mr. True wants to avoid petty factionalism, but says he will face every issue squarely. Another matter that is troubling Mr. True is the bear question. He says his present inclination is to side with Bass King on this issue, though he admits that Les Johnson's cause has some merit. Mr. True said he would seek an interview with the sage of North Main Street at an early date and would probably have something definite to say with reference to the mayoralty campaign. In the meantime he urges his friends to pay their poll taxes.

Several errors have been appearing in this newspaper of late. Several customers have complained. The reason is that the city editor of this newspaper, young Mr. James N. Allison, is not quite himself these days. He is scheduled to be married next Sunday in Wichita Falls. He is not quite normal. Slight errors and omissions should be excused for the time being. The rector of this column might take Mr. Allison's place on the city editor's desk and improve matters some, but that is a real job, and what is the use of earning a body's living by doing real work? Anybody may make a living by working, but it requires shrewdness to get by without work. This column is under the direction of a shrewd person. It is.

SIX PEOPLE BURN TO DEATH IN HOTEL FIRE

Many Bandits Killed In Battle With Mexican Federal Troops

EIGHT OUTLAWS ARE CAPTURED AND EXECUTED

Soldiers Recover Loot Taken In Horrible Massacre and Band Is Believed Entirely Dispersed Following Fight—Twenty Bodies Recovered.

Mexico City, Jan. 12—(A)—An unknown number of the bandits who massacred passengers and guards on a train running between Guadalajara and Mexico City have been killed in a fight with Federal troops. Eight others who were captured were immediately executed. All the loot secured by the bandits has been recovered and the bandits are believed to have been entirely dispersed. This announcement was made early today by the War Department here.

Dispatches from Zamora, State of Michoacan previously said that the bandits passed through that city yesterday morning, fleeing from Federal troops and that later they were surrounded.

After the bandits Saturday night murdered passengers and guards, 4,000 troops started scouring the mountainous regions of the States of Guerrero, Jalisco and Michoacan. They were under orders to bring in the bandits, dead or alive.

Twenty Bodies Found.

Just how many persons met death when the bandits opened fire on passengers and knifed the train guards, or who perished in the burning coaches which the bandits set on fire, is uncertain. Twenty bodies had been removed from the train, cut the remains of the train. Estimates of the number of the foreigners on the train was injured but all of them were robbed. C. M. Wynkoop of Berryville, Va., a representative of the Buick Motor Company, who was a passenger on the train, gave a graphic account on his arrival here.

As darkness fell 20 men with rifles stationed themselves at the doors and immediately began firing on passengers in the second and third class coaches. No mercy was shown. Women and children were brutally shot down the same as men. All the soldier guards were slain.

"It was a perfect nightmare of incredible, wanton bloody thirstiness," said Mr. Wynkoop.

Looted Town.

When the horror had been completed, the bandits, with an expert engineer in the cab of the engine, ran the train to the station of Yurecuara. Here they looted the town, cut the telegraph wires and murdered other Mexicans. The foreign passengers were forced to leave the train, which was taken up the line a short distance and set on fire but not before the express and baggage cars had been looted of valuables. These were placed on the engine, which was uncoupled and driven away.

Mr. Wynkoop said he heard the bandits shout "We are not bandits, we are revolutionists." One of the Mexicans told him they were rebelling against President Calles. "You watch developments," he added. "The revolution is not over."

Most of the foreigners camped out Saturday night in the wrecked town of Yurecuara. Others walked through the night and finally reached Guadalajara. Mr. and Mrs. Wynkoop walked until they found a train for Mexico City. They suffered considerable hardship. The other American on the train was a mining man from Pachuca named Russell. Mrs. C. H. Sharrett, wife of the manager of the Guadalajara branch of the Bank of Montreal and her five months old baby, also, were passengers. They arrived at Guadalajara unharmed.

A committee composed of Dr. W. R. Moore and Roy Abbott, J. T. Glover, and M. C. Calhoun was appointed to work with the city commission at the meeting to be held Tuesday night.

Favor Purchase.

A straw vote of the members not present showed that every director of the Chamber of Commerce is strongly in favor of the city purchasing the park, except one man, who could not be reached.

Some members of the board were in favor of a few business men of the city underwriting a forfeit to hold the property until the city would have time to act.

The annual banquet of the Chamber of Commerce will be held Thursday night, January 28, it was decided. No arrangements for the program have been made, but it is announced that efforts will be made to bring prominent speakers and business men here from over the state to address the gathering.

DALLAS DOCTOR IDENTIFIES SKULL FOUND ON DESERT

Dallas, Jan. 12—(A)—Mystery which had veiled the disappearance of John L. Knight, prominent Dallas business man, since July 1921, when he was crossing the Hassayampa Desert in Arizona, was solved here today with identification of the skull found on the desert recently as that of the missing man. Identifications were established by Dr. Harrison B. Cave, dentist, through dental work done for Mr. Knight. The skull was received in Dallas yesterday.

Knight was last seen the night of July 9, at Buckeye, Arizona, when he left to cross the desert in his automobile. His abandoned machine was found a few days later several miles from the main road. The skull, found Christmas Day, was near the spot where Mr. Knight's handbag and overcoat were found 18 months ago. The handbag was intact and had apparently been unopened, discounting, officers said the theory of foul play. Eight persons have been arrested in connection with the case since the nationwide search for Mr. Knight began but basis for charges were always insufficient. Investigation of the case will be resumed by Arizona authorities, it was indicated.

New York, Jan. 12.—Cotton futures opened steady. March 19.80; May 19.35; July 18.75; October 18.12; December 17.90.

The cotton market opened steady with a decline of one point to an advance of three points, and sold about four to nine points net higher in early trading on covering by near month shorts with some trade and commission house buying, encouraged by steady Liverpool cables. March sold up to 19.87 and October to 18.12, or four to seven points net higher, with the market quiet but fairly steady, at the end of the first hour.

Reports of a firmer basis on low grades in the South probably brought in a little buying toward middle when the market sold up to 19.92 for March and 18.35 for October, or 7 to 12 points net higher.

No fresh trading or news feature developed in the early afternoon. The market was very quiet. March selling around 19.87 at 2 o'clock when prices were about four to nine points net higher.

New Orleans.

New Orleans, Jan. 12.—Cotton opened steady. January 19.33; March 19.28; May 18.87; July 18.38; October 17.64.

The cotton market opened steady in sympathy with better cables than due. Initial trades showed gains of 4 to 5 points and prices advanced slightly after the call. March trading to 19.30, May to 18.89 and July to 18.50, or six to seven points above yesterday's close. The market soon eased off about five points from the early highs and trading became very narrow, prices showing no definite trend.

The market continued very narrow all morning being influenced by a few trades either way. Prices rallied moderately, making new highs on some short covering. March trading up to 19.37, May to 18.96 and July to 18.53, or 8 to 12 points above the early lows. Spot advices were rather favorable.

Following the slight spurt the market relapsed into dullness with prices near the high.

The market continued narrow and uninteresting during the afternoon, fluctuating within a few points and ending within the previous range, although May made a new high at 18.94.

Many Vernon Folks Are Suffering From Kidney Weakness.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and stinging, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Vernon people. Profit by this Vernon resident's experience:

W. H. Hancock, part owner service station, Wilbarger Street, says: "My kidneys were somewhat out of order and the secretions were too freely at night this bothered me most, and I had to get up often. I also had a dull, mean ache in my back. I took Doan's Pills and they cured me. My kidneys acted normally and I was no longer bothered with backache."

"WHEN THE DOOR OPENED" IS CURWOOD PRODUCTION

"When the Door Opened," the film version of the novel by James Oliver Curwood, produced by William Fox, comes to the Pictorium Wednesday only.

Jaqueline Logan will appear in the leading feminine role as lovely Teresa de Fontenac who has been reared by a cynical old grandfather in a huge chateau in the Canadian woods. She knows nothing of life outside her gloomy home—and nothing of men at all.

Walter McGrail is the likable Clive Grenfell who has left his past behind him and come to Canada to forget and start over again. He is distrustful of all humanity, particularly women, because of his experiences and is—he thinks—a fugitive from justice.

Robert Cain is cast as Henry Fredricks, the man who has broken up Clive's home and who later almost ruins his life by his unjust accusations.

Frank Keenan is the old Grandfather de Fontenac, a crabbed old reclusive with a grudge against the world. Margaret Livingston is Mrs. Grenfell, Clive's faithful wife, and Ray Laidlow the old servant.

The setting for the picture is the Canadian woods and the picture was actually photographed in those picturesque surroundings.

Dangerous Cough—How to End it

To quickly end a dangerous cough there is a very simple treatment which gives almost instant relief and often breaks the cough entirely in 24 hours.

This treatment is based on the famous Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the real cause of the coughing. So the worst cough usually disappears quickly.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

the audience at high pitch. Added to this is a tender love story with a totally unexpected ending.

Conrad Nagel, who makes a brief appearance as Mangle's Dream Lover in Monte Bell's "Pretty Ladies," the Metro-Goldwyn-Mayer production now being shown at the Pictorium Theatre, is one of the most famous leading men of the screen. In "Pretty Ladies" Conrad Nagel really plays himself and consented to play what might be termed a "bit" because the picture cast contains many stars who appear only in a few scenes.

WHAT OUR NEIGHBORS ARE DOING

"It takes a heap o'livin'" the kindly poet sung, "to make the house you live in, into a real home." The wedding bells of June time—the doctors solemn bow—the pitter pat of tiny feet are some things one must know, if one would feel the joy there is in home life at its best—a place of love and comfort where the weary go for rest. "It takes a heap o'livin'," a lot of tears and joy to give the home you live in its claims none may destroy. The man who dwells in borrowed house and moves from place to place is missing much that's best in life—that nothing will replace.

Talk over with us the matter of a home of your own—it is less difficult than many imagine.

A VERY PROMISING CANDIDATE

A Dallas lawyer has announced his candidacy for a place on the Court of Criminal Appeals, which is the supreme court in Texas so far as criminal matters are concerned, and he bases his appeal for support on the plea that there is too much of technicality and too little of justice in the administration of the criminal laws of Texas.

"Swift justice and fewer technicalities" is the way the Dallas jurist summarizes his platform demand. This is a fine idea to have in view and most good citizens will applaud any and all moves in that direction, whether by lawyers, courts or the Legislature. There are too many technicalities that result in the acquittal of persons guilty of crimes, or, at least it seems so to the average layman. It is entirely too easy for criminals to go free in Texas. There are not as many hangings as there ought to be. There are not as many, nor as severe, penitentiary sentences as there ought to be. The only way to check crime in Texas is to inflict the penalties of the law upon those who flagrantly violate the law.

But any student of the situation will readily understand also that our troubles are far too complicated and deep-seated to be remedied by the election of a certain man as a member of the Court of Criminal Appeals, however learned he may be and however zealous he may be for upholding the law.

In the first place, many of the so-called technicalities are not in fact technicalities. Many of them are plain provisions of the law. They seem technical, oftentimes, to the layman, but frequently these so-called technicalities are really fundamental rights, guaranteed to citizens by the constitution. The courts cannot ignore the plain provisions of the laws and the constitution, and no sane person would want the courts to go beyond the provisions of the written law, even when the error is committed on the side of justice and in the interest of society. Our civilization must stand or fall on the integrity of the written law.

Incompetence in the drawing of indictments and in the trial of cases is perhaps responsible for a great number of decisions in the Court of Criminal Appeals favorable to persons accused of committing crime. Misconduct on the part of jurors is not an infrequent cause of reversals of convictions. Many provisions of the law itself make it exceedingly difficult to secure convictions or to try a case without permitting reversible error to creep into the record. More criminals are freed by jurists than escape through decisions by the Court of Criminal Appeals.

The judges of the appellate court have little opportunity to remedy all of these failures of the law, and a single member of that court certainly could not very radically shape its policies. In view of these considerations there is some occasion for doubting whether a lawyer who is

really qualified for the office would indulge in utterances that, taken at face value, would leave the impression that all we need to work a complete reform of our judicial procedure is to place him on the bench.

MORE FOOD AND LESS COTTON

The program of the Chamber of Commerce for the ensuing year is yet to be announced, but one of the most important items that should be listed in the 1926 working budget is promotion of a campaign to encourage the production of food on the farms of Wilbarger County. Cotton will no doubt remain for many years to come our chief crop, but we have seen from our experiences of the past year that we have no assurance of prices that yield a profit. A bumper crop for 1926 would spell disaster for the cotton producers, unless there shall be opened up new markets that will offset the results of a large crop.

There is no immediate prospect of finding new markets. A big acreage most likely means a big crop, and we know a big crop means a low price. The best way for the cotton farmer to guard against disaster that would follow in the wake of low cotton prices is to arrange to make his living outside of cotton. In other words, he must produce other things that will yield a profit in order to offset losses on cotton. The production of food is the best answer. There is always a good market for poultry products. Dairy products and hogs are usually saleable at profitable figures. But even if the market for these things is not such as to make them highly profitable, the farmer can at least produce his own feed supply at home.

There are hundreds of farms in Wilbarger County that have no gardens, chickens, pigs or cows. The occupants are as dependent on the grocery stores for their food supplies as are the city residents. Wilbarger County will never attain her rightful economic place until her farmers produce at least enough food to supply themselves and the home market. Right now, with hundreds of oil field workers, Vernon is a good market for produce. The Chamber of Commerce ought to adopt a "more-food-and-less-cotton" slogan for 1926.

Dr. Henry P. Ledford wishes to announce the opening of the Ledford Baby and Children's Clinic at 1310 Ninth street, January 1, 1926.

Owing to the demand by mothers for more convenient parking space and our inability to supply rooms downtown for isolation wards and modern methods of Ultra-Violet Ray treatment for the anemic, undernourished child, as well as for the general electrical equipment, we have moved to this location where we are able to offer the above improved facilities to our patients.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by all drug stores. Adv. Tues

Free Love Colony Is Deserted By Women Tuesday

Allenton, Pa., Jan. 12.—(P)—April Farm, the colony sponsored by Charles Garland, millionaire Socialist, was virtually deserted by its women today and Garland was at liberty on \$1,000 bail on a charge involving the parentage of a child born to one of the women members.

The flight of the women was revealed yesterday, when Sheriff Sensenbuck of Lehigh County went to arrest Garland and subpoena Nettie Hovey, mother of the infant. The child was born last July 4 and died of suffocation, due to a throat affliction, on October 17. The death certificate named Garland as the father and Miss Hovey as the mother. The charge against Garland is adultery.

Find Six Men.

At the farm officers found six men, including Garland, but only one woman, Doris Benson. None of the colonists would reveal where the other women have gone. Garland readily accompanied the sheriff and after a hearing furnished bond.

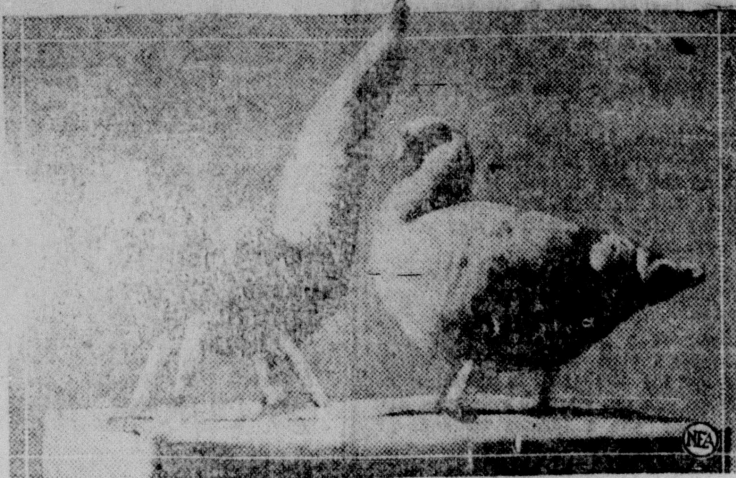

The unfavorable publicity which the colony has received since City Solicitor Stuart recommended that a charter be denied on the ground that its members did not believe in marriage and practiced free love, is believed responsible for the flight of the women. Garland has denied that he believes in or practices free love. He terms the colony an experiment in social science.

Investigators are seeking to learn the whereabouts of Mary Preston Wren-Garland, the colony leader's wife. Her home is Dedham, Mass., and some Boston advisers are that she has left for Pennsylvania "to join her husband whom she still adores." Another Boston source says Mrs. Garland is in the South.

H. G. Wall Is Candidate For County Sheriff

H. G. Wall, second in the race for Sheriff two years ago, has announced that he will be a candidate for the same office in the Democratic primary this year. He announced immediately following the primary two years ago that he would be a candidate again this year and asked his friends to keep this fact in mind.

Mr. Wall served as a peace officer in the city 28 months and this experience, together with his other qualifications, he believes renders him capable of making a good sheriff for Wilbarger County.

He promises to do all in power to secure a fair and impartial enforcement of all laws and is making the race on his own initiative without the solicitation or influence of any special group. If elected, Mr. Wall says he would enter office obligated to none but the people as a whole and

would do his duty without fear or favor. Mr. Wall invites the most searching investigation into his record as a citizen of Wilbarger County for the past six years and will appreciate any consideration given his candidacy. He Avs.

URGES BUYING OF PLANTATIONS

HOOVER'S REMEDIES ARE CONDEMNED BY LELAND SUMMERS.

New York, Jan. 12.—(AP)—Because of the demand of American consumers for cheaper rubber, W. O. Rathbun, president of the American Rubber Association, suggests that plantations be acquired by American interests in the Philippines and in Dutch East India. Such acquisitions, he has informed the association's directors, now meeting here, should not be construed as reprisal because of Great Britain's restrictions on its rubber output, but as good business. Already the Firestone Tire and Rubber Company has taken an initial step towards development of American plantations by obtaining from the Republic of Liberia, a 99 year lease on 1,000,000 acres of land and a 2,000 acre matured plantation. Officials are planning to spend \$100,000,000 in development. The Firestone interests also have rubber developments in Mexico.

Leland L. Summers, chairman of the foreign mission of the War Industries Board during the war, has different views than manufacturers. In a statement today he said that remedies proposed by Secretary Hoover to aid the foreign trade situation were worse than the disease and would place American industry under the Government's thumb.

Mr. Hoover, discussing monopolies of raw materials, including rubber, by foreign groups, advocated among other steps development of the products in other countries. Mr. Summers said the British control of rubber was not unfair and that the present situation would soon be relieved by the development of the Dutch rubber trade. Mr. Summers paid tribute to the fairness of Winston Churchill, British secretary of the colonies, and said it was impossible that proper overtures to him would not receive courteous consideration.

MARTIN TRIAL IS DELAYED FOR FUNERAL

Fort Worth, Jan. 12.—(AP)—With court opening delayed until 2 p. m. out of respect to Judge Ben M. Tercell, who was buried this morning, prospects for completing today the jury to try W. A. Martin in connection with the daylight holdup of the Arm State Bank last summer, were considerably lessened.

MANY RUSSIANS PERISH FROM EXTREME COLD WEATHER

Leningrad, Russia, Jan. 12.—(AP)—This city and its environs are experiencing the coldest for 136 years, the thermometer today registering 22 below zero. Many persons have perished from the cold.

Dallas Society Girl Wins Stage Career Monday

Philadelphia, Jan. 12.—(AP)—Parental prejudice against the stage melted before youthful ambition and the spell of the lights last night, and as a result Miss Ruth Laird, 18 year old society girl of Dallas, may be allowed to continue with her stage career.

This was indicated by Mrs. Elizabeth Laird, her mother and wife of a retired oil operator of Texas after she had occupied a front seat at the opening performance of the show in which her daughter took part. Mrs. Laird had come to prevent her daughter from appearing in the show but changed her mind at the last minute in deference to Ruth's earnest pleadings.

Objected to Society. Miss Laird ran away from a girls' finishing school in Washington two years ago to study dancing in Paris. She objected to entering society as strongly as her parents objected to her going upon the stage. She returned a year ago and continued her dancing studies in New York.

After the performance last night Mrs. Laird said she would need "a few days to think it over" and admitted that perhaps it would best fit her daughter to continue with her dancing. Her only doubt was expressed in "but her father objects to the stage even more than I do." Miss Laird, who had not seen her mother in more than two years until they met here yesterday, said that she knew as soon as her mother saw her dancing and acting, and understood her work, she "would see things differently."

Which apparently, her mother did.

UNIVERSITY FACULTY ASKED FOR SUBSCRIPTIONS

Austin, Jan. 12.—(AP)—Texas University faculty members were asked to subscribe to the Ferguson Forum, organ of Governor Miriam A. Ferguson's administration, in a circular mailed last week. The paper is published at Temple by James E. Ferguson, former Governor, husband and chief adviser of the present Governor.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by all drug stores. Adv. Tues.

lished at Temple by James E. Ferguson, former Governor, husband and chief adviser of the present Governor.

Many State employees in the Capitol are subscribers. W. B. Shoe, former head of the Workman's Compensation Division of the Fire Insurance Commission, said last Fall he was fired because of refusal to subscribe to the Forum.

The circular to faculty members declares the Forum gives more political news than "all Texas newspapers" and urges them to arm themselves with the Forum in anticipation of the coming campaign. It is signed by James E. Ferguson.

Mr. Stork Leaves Other Runners at Post in Big Race

The stork outdistanced all runners, in fact nearly left them all at the post Monday when Mrs. Robert Thompson of Breckenridge announced the birth of a son, Monday morning at 10 o'clock at a Wichita Falls hospital.

Mrs. Thompson was taken from the train early Monday, en route to Amarillo, and rushed to the hospital. The young husband was in Breckenridge when notified of the impending event. The grandmother, Mrs. R. Thompson and the new uncle, Jack Wheatley, were in Amarillo when the race started.

Of course, the little one had a beautiful layette, prepared weeks ago, but at the last minute, it was misplaced and its birthday clothes were all the baby had until a new wardrobe could be provided.

The first born is a lusty healthy baby and will soon resume the journey to Amarillo with the mother and father. The grandmother remained over for a visit with the new grandson and Mr. Wheatley is spending today in Vernon, visiting relatives. Mr. Wheatley was a former resident of this city and was born here.

Farrell Oil Company office is now located at 1230 Main Street. 55-56c

SIX PEOPLE BURN TO DEATH IN HOTEL FIRE

Many Bandits Killed In Battle With Mexican Federal Troops

EIGHT OUTLAWS ARE CAPTURED AND EXECUTED

Soldiers Recover Loot Taken In Horrible Massacre and Band Is Believed Entirely Dispersed Following Fight—Twenty Bodies Recovered.

Mexico City, Jan. 12.—(A-P)—An unknown number of the bandits who massacred passengers and guards on a train running between Guadalajara and Mexico City have been killed in a fight with Federal troops. Eight others who were captured were immediately executed. All the loot recovered by the bandits has been recovered and the bandits are believed to have been entirely dispersed. This announcement was made early today by the War Department here.

Dispatches from Zamora, State of Michoacan, previously said that the bandits passed through that city yesterday morning, fleeing from Federal troops and that later they were surrounded.

After the bandits Saturday night murdered passengers and guards, 4,000 troops started scouring the mountainous regions of the States of Guerrero, Jalisco and Michoacan. They were under orders to bring in the bandits, dead or alive.

Twenty Bodies Found.

Just how many persons met death when the bandits opened fire on passengers and knifed the train guards, or who perished in the burning coaches which the bandits set on fire, is uncertain. Twenty bodies had been removed from the debris. Estimates of the fatalities run as high as fifty.

None of the foreigners on the train was injured but all of them were robbed. C. M. Wynkoop of Berryville, Va., a representative of the Buick Motor Company, who was a passenger on the train, gave a graphic account on his arrival here.

As darkness fell 20 men with rifles stationed themselves at the doors and immediately began firing on passengers in the second and third class coaches. No mercy was shown. Men and children were brutally shot down, the same as men. All the soldier guards were slain.

"It was a perfect nightmare of incredible, wretched bloody thirstiness," said Mr. Wynkoop.

Looted Train.

When the horror had been completed, the bandits, with an expert engineer in the cab of the engine, ran the train to the station of Yurucuar. Here they looted the train, cut the telegraph wires and murdered other Mexicans. The foreign passengers were forced to leave the train, which was taken up the line a short distance and set on fire but not before the express and baggage cars had been looted of valuables. These were placed on the engine, which was uncoupled and driven away.

Mr. Wynkoop said he heard the bandits shout "We are not bandits, we are revolutionaries." One of the Mexicans told him they were rebelling against President Calles. "You watch developments," he added. "The revolution is not over."

Most of the foreigners camped out Saturday night in the wrecked town of Yurucuar. Others walked throughout the night and finally reached Guadalajara. Mr. and Mrs. Wynkoop walked until they found a train for Mexico City. They suffered considerable hardship. The other American on the train was a mining man from Pachuca named Russell. Mrs. C. H. Sharratt, wife of the manager of the Guadalajara branch of the Bank of Montreal and her five months old baby, also, were passengers. They arrived at Guadalajara unharmed.

The statistician of this column is feeling better today. He is on the mailing list of the Congressman from this district, but, of course, this is campaign year and Congressmen are mindful of their constituents in campaign years. The evidence, though, that this philosopher is known to his Congressman is too voluminous to permit of the suggestion that the recurrence of election year is the thing that prompted the remembrance which came today.

Again Williams. The evidence is 1232 pages of a neatly bound and profusely illustrated volume, though not quite so profusely illustrated as a certain edition of a Texas History, in which some of our local celebrities figured a few years ago. The book received by Home Town from Congressman Williams is called the Agriculture Yearbook for 1924. It is the printed and bound copy of the report of the Secretary of Agriculture to the President of the United States. It is safe to say, however, that the printers and proofreaders in the Government printing office are the only persons who ever did or ever will read the book. Statistics are as dry as a missionary sermon. The book is appreciated, but Congressman Williams would have gratified himself with this particular constituent with a cigar, far more than he would by sending a book of statistics.

Since yesterday's announcement in this column that Mr. Everett True was being urged to make the race for Mayor in the April election, considerable interest has been manifested in the race. The champion of the common people has again declined to talk for publication, though he admitted he was considering the matter, and will no doubt reach an early decision. Mr. True was visibly affected when he read in yesterday's Home Town column that Bud Daniel has come out for him. His usually stern countenance softened perceptibly, and he was evidently pleased with Mr. Daniel's statement. He said, however, his support may have the effect of drawing him into the fish controversy with C. S. McCool. Mr. True wants to avoid petty issues, but says he will face every issue squarely.

Another matter that is troubling Mr. True is the bear question. He says his present inclination is to side with Bass King on this issue, though he admits that Les Johnson's cause has some merit. Mr. True said he would seek an interview with the sage of North Main Street at an early date and would probably have something definite to say with reference to the mayoralty campaign. In the meantime he urges his friends to pay their poll taxes.

Several errors have been appearing in this newspaper of late. Several customers have complained. The reason is that the city editor of this newspaper, young Mr. James N. Allison, is not quite himself these days. He is scheduled to have something to do in Wichita Falls. He is not quite normal. Slight errors and omissions should be excused for the time being. The rector of this column might take Mr. Allison's place on the city editor's desk and improve matters some, but that is a real job, and what is the use of earning a body's living by doing real work? Anybody may make a living by working without work. This column is under the direction of a shrewd person. It is.

C. OF C. FAVORS PURCHASE OF FAIR PARK BY CITY

Directors of the Vernon Chamber of Commerce at their monthly meeting Monday night unanimously passed a resolution requesting the city commission to call an election for the purpose of voting bonds for the purchase of Fair Park, and set January 28 as the date for the annual Chamber of Commerce banquet.

All directors present strongly expressed their desire to see Fair Park made a city park, and E. M. Haney, Dr. W. R. Moore and J. L. Showers made short talks in favor of the project. A committee composed of Dr. W. R. Moore and Roy Abbott, J. T. Glover, and M. C. Culbertson was appointed to work with the city commission at the meeting to be held Tuesday night.

Favor Purchase.

A straw vote of the members present showed that every director of the Chamber of Commerce is strongly in favor of the city purchasing the park, except one man, who could not be reached.

Some members of the board were in favor of a few business men of the city underwriting a forfeit to hold the property until the city would have time to act.

The annual banquet of the Chamber of Commerce will be held Thursday night, January 28, it was decided. No arrangements for the program have been made, but it is announced that efforts will be made to bring prominent speakers and business men here from over the state to address the gathering.

Report Two Men Confess To Osage Reign Of Terror

Guthrie, Okla., Jan. 12.—(A-P)—With confessions of Ernest Burkhart and John Ramsey, both facing murder charges in connection with the Osage "reign of terror" reported in the hands of Federal authorities, the crop of rumors attendant on the grand jury session here grew apace today.

There were reports that the alleged confessions had so scrambled the plans for a long inquiry that the jury would wind up its work tomorrow and that anything left to be cleaned up would be placed before another Federal grand jury to meet next Monday in Oklahoma City.

Witnesses Leave City.

It is apparent that many witnesses have left the city. The army of those who were to testify and those who came to look on has dwindled until the city almost has resumed a normal appearance.

Federal authorities have refused to confirm the reports either that confessions have been made or that an end of the jury session was imminent.

DALLAS DOCTOR IDENTIFIES SKULL FOUND ON DESERT

Dallas, Jan. 12.—(A-P)—Mystery which had veiled the disappearance of John L. Knight, prominent Dallas business man, since July 1921, when he was crossing the Hassayampa Desert in Arizona, was solved here today with identification of the skull found on the desert recently as that of the missing man. Identifications were established by Dr. Harrison B. Cave, dentist, through dental work done for Mr. Knight. The skull was received in Dallas yesterday.

Knight was last seen the night of July 9, at Buckeye, Arizona, when he left to cross the desert in his automobile. His abandoned machine was found a few days later several miles from the main road. The skull, found Christmas Day, was near the spot where Mr. Knight's handbag and overcoat were found 18 months ago. The handbag was intact and had apparently been unopened, discounting, officers said the theory of foul play. Eight persons have been arrested in connection with the case since the nationwide search for Mr. Knight began but basis for charges were always insufficient. Investigation of the case will be resumed by Arizona authorities, it was indicated.

Many Vernon Folks Are Suffering How To Avoid Needless Suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and seething, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic—to the kidneys—have brought peace and comfort to many Vernon people. Profit by this Vernon resident's experience:

W. H. Hancock, port owner service station, Wilhagen Street, says: "My kidneys were somewhat out of order and the secretions passed too freely. At night this bothered me most, as I had to get up often. I also had a dull, mean ache in my back. I took Doan's Pills and they cured me. My kidneys acted normally and I was no longer bothered with backache."

"WHEN THE DOOR OPENED" IS CURWOOD PRODUCTION

"When the Door Opened," the film version of the novel by James Oliver Curwood, produced by William Fox, comes to the Pictorium Wednesday only.

Jaqueline Logan will appear in the leading feminine role as lovely Teresa de Fontenay who has been reared by a cynical old grandfather in a huge chateau in the Canadian woods. She knows nothing of life outside her gloomy home—and nothing of men at all.

Walter McGrail is the likeable Clive Grenfell who has left his past behind him and come to Canada to forget and start over again. He is distrustful of all humanity, particularly women, because of his experiences and is—he thinks—a fugitive from justice.

Robert Cain is cast as Henry Fredricks, the man who has broken up Clive's home and who later almost ruins his life by his unjust accusations.

Frank Keenan is the old Grandfather de Fontenay, a crabbed old reclusive with a grudge against the world. Margaret Livingston is Mrs. Grenfell, Clive's faithful wife, and Ray Laidlow the old servant.

The setting for the picture is the Canadian woods and the picture was actually photographed in those picturesque surroundings.

There is plenty of action to hold the audience at high pitch. Added to this is a tender love story with a totally unexpected ending.

Dangerous Cough —How to End it

To quickly end a dangerous cough there is a very simple treatment which gives almost instant relief and often breaks the cough entirely in 24 hours.

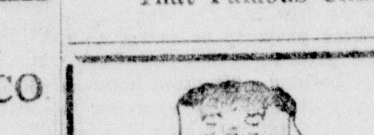

This treatment is based on the famous Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the real cause of the coughing. So the worst cough usually disappears quickly.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

the audience at high pitch. Added to this is a tender love story with a totally unexpected ending.

Conrad Nagel, who makes a brief appearance as Maggie's Dream Lover in Monte Bell's "Pretty Ladies," the Metro-Goldwyn-Mayer production now being shown at the Pictorium Theatre, is one of the most famous leading men of the screen. In "Pretty Ladies" Conrad Nagel really plays himself and consented to play what might be termed a "bit" because the picture cast contains many stars who appear only in a few scenes.

WHAT OUR NEIGHBORS ARE DOING

"It takes a heap o'livin'" the kindly poet sung, "to make the house you live in, into a real home." The wedding bells of June time—the doctors solemn bow—the pitter pat of tiny feet are some things one must know, if one would feel the joy there is in home life at its best—a place of love and comfort where the weary go for rest. "It takes a heap o'livin'" a lot of tears and joy to give the home you live in its claims none may destroy. The man who dwells in borrowed house and moves from place to place is missing much that's best in life—that nothing will replace.

A VERY PROMISING CANDIDATE.

A Dallas lawyer has announced his candidacy for a place on the Court of Criminal Appeals, which is the supreme court in Texas so far as criminal matters are concerned, and he bases his appeal for support on the plea that there is too much of technicality and too little of justice in the administration of the criminal laws of Texas.

"Swift justice and fewer technicalities" is the way the Dallas jurist summarizes his platform demand. This is a fine idea to have in view and most good citizens will applaud any and all moves in that direction, whether by lawyers, courts or the Legislature. There are too many technicalities that result in the acquittal of persons guilty of crimes, or, at least it seems so to the average layman. It is entirely too easy for criminals to go free in Texas. There are not as many hangings as there ought to be. There are not as many, nor as severe, penitentiary sentences as there ought to be. The only way to check crime in Texas is to inflict the penalties of the law upon those who flagrantly violate the law.

But any student of the situation will readily understand also that our troubles are far too complicated and deep-seated to be remedied by the election of a certain man as a member of the Court of Criminal Appeals, however learned he may be and however zealous he may be for upholding the law.

In the first place, many of the so-called technicalities are not in fact technicalities. Many of them are plain provisions of the law. They seem technical, oftentimes, to the layman, but frequently these so-called technicalities are really fundamental rights, guaranteed to citizens by the constitution. The courts cannot ignore the plain provisions of the laws and the constitution, and no sane person would want the courts to go beyond the provisions of the written law, even when the error is committed on the side of justice and in the interest of society. Our civilization must stand or fall on the integrity of the written law.

Incompetence in the drawing of indictments and in the trial of cases is perhaps responsible for a great number of decisions in the Court of Criminal Appeals favorable to persons accused of committing crime. Misconduct on the part of jurors is not an infrequent cause of reversals of convictions. Many provisions of the law itself make it exceedingly difficult to secure convictions or to try a case without permitting reversible error to creep into the record. More criminals are freed by juries than escape through decisions by the Court of Criminal Appeals.

The judges of the appellate court have little opportunity to remedy all of these failures of the law, and a single member of that court certainly could not very radically shape its policies. In view of these considerations there is some occasion for doubting whether a lawyer who is

really qualified for the office would indulge in utterances that, taken at face value, would leave the impression that all we need to work a complete reform of our judicial procedure is to place him on the bench.

MORE FOOD AND LESS COTTON

The program of the Chamber of Commerce for the ensuing year is yet to be announced, but one of the most important items that should be listed in the 1926 working budget is promotion of a campaign to encourage the production of food on the farms of Wilbarger County. Cotton will no doubt remain for many years to come our chief crop, but we have seen from our experiences of the past year that we have no assurance of prices that yield a profit. A bumper crop for 1926 would spell disaster for the cotton producers, unless there shall be opened up new markets that will offset the results of a large crop.

There is no immediate prospect of finding new markets. A big acreage most likely means a big crop, and we know a big crop means a low price. The best way for the cotton farmer to guard against disaster that would follow in the wake of low cotton prices is to arrange to make his living outside of cotton. In other words, he must produce other things that will yield a profit in order to offset losses on cotton. The production of food is the best answer. There is always a good market for poultry products. Dairy products and hogs are usually salable at profitable figures. But even if the market for these things is not such as to make them highly profitable, the farmer can at least produce his own feed supply at home.

There are hundreds of farms in Wilbarger County that have no gardens, chickens, pigs or cows. The occupants are as dependent on the grocery stores for their food supplies as are the city residents. Wilbarger County will never attain her rightful economic place until her farmers produce at least enough food to supply themselves and the home market. Right now, with hundreds of oil field workers, Vernon is a good market for produce. The Chamber of Commerce ought to adopt a "more-food-and-less-cotton" slogan for 1926.

Free Love Colony Is Deserted By Women Tuesday

Allenton, Pa., Jan. 12.—(P)—April Farm, the colony sponsored by Charles Garland, millionaire Socialist, was virtually deserted by its women today and Garland was at liberty on \$1,000 bail on a charge involving the parentage of a child born to one of the women members.

The flight of the women was revealed yesterday, when Sheriff Sennebach of Lehigh County went to arrest Garland and subpoena Nettina Hovey, mother of the infant. The child was born last July 4 and died of suffocation, due to a throat affliction, on October 17. The death certificate named Garland as the father and Miss Hovey as the mother. The charge against Garland is adultery.

Find Six Men

At the farm officers found six men, including Garland, but only one woman, Doris Benson. None of the colonists would reveal where the other women have gone. Garland readily accompanied the sheriff and after a hearing furnished bond.

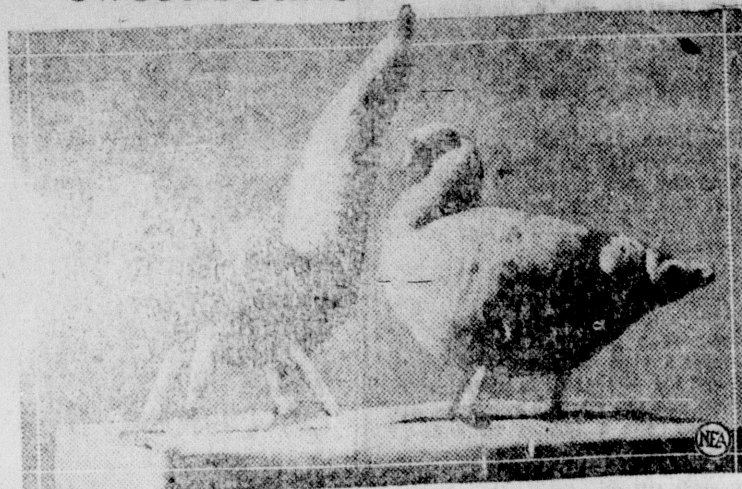

The unfavorable publicity which the colony has received since City Solicitor Stuart recommended that a charter be denied on the ground that its members did not believe in marriage and practiced free love, is believed responsible for the flight of the women. Garland has denied that he believes in or practices free love. He terms the colony an experiment in social science.

Investigators are seeking to learn the whereabouts of Mary Preston Wrenn-Garland, the colony leader's wife. Her home is Dedham, Mass., and some Boston advisers are that she has left for Pennsylvania "to join her husband whom she still adores." Another Boston source says Mrs. Garland is in the South.

H. G. Wall Is Candidate For County Sheriff

H. G. Wall, second in the race for Sheriff two years ago, has announced that he will be a candidate for the same office in the Democratic primary this year. He announced immediately following the primary two years ago that he would be a candidate again this year and asked his friends to keep this fact in mind.

Mr. Wall served as a peace officer in the city 28 months and this experience, together with his other qualifications, he believes renders him capable of making a good sheriff for Wilbarger County.

He promises to do all in power to secure a fair and impartial enforcement of all laws and is making the race on his own initiative without the solicitation or influence of any special group. If elected, Mr. Wall says he would enter office obligated to none but the people as a whole and

would do his duty without fear or favor. Mr. Wall invites the most searching investigation into his record as a citizen of Wilbarger County for the past six years and will appreciate any consideration given his candidacy. 11c Adv.

URGES BUYING OF PLANTATIONS

HOOVER'S REMEDIES ARE CONDEMNED BY LELAND SUMMERS.

New York, Jan. 12.—(AP)—Because of the demand of American consumers for cheaper rubber, W. O. Ruth, president of the American Rubber Association, suggests that plantations be acquired by American interests in the Philippines and in Dutch East India. Such acquisitions, he has informed the association's directors, now meeting here, should not be construed as reprisal because of Great Britain's restrictions on its rubber output, but as good business. Already the Firestone Tire and Rubber Company has taken an initial step towards development of American plantations by obtaining from the Republic of Liberia, a 99 year lease on 1,000,000 acres of land and a 2,000 acre matured plantation. Officials are planning to spend \$100,000,000 in development. The Firestone interests also have rubber developments in Mexico.

Leland L. Summers, chairman of the foreign mission of the War Industries Board during the war, has different views than manufacturers. In a statement today he said that remedies proposed by Secretary Hoover to aid the foreign trade situation were worse than the disease and would place American industry under the Government's thumb.

Mr. Hoover, discussing monopolies of raw materials, including rubber, by foreign groups, advocated among other steps development of the products in other countries. Mr. Summers said the British control of rubber was not unfair and that the present situation would soon be relieved by the development of the Dutch rubber trade. Mr. Summers paid tribute to the fairness of Winston Churchill, British secretary of the colonies, and said it was impossible that proper overtures to him would not receive courteous consideration.

Dallas Society Girl Wins Stage Career Monday

Philadelphia, Jan. 12.—(AP)—Parental prejudice against the stage melted before youthful ambition and the spell of the lights last night, and as a result Miss Ruth Laird, 18 year old society girl of Dallas, may be allowed to continue with her stage career.

This was indicated by Mrs. Elizabeth Laird, her mother and wife of a retired oil operator of Texas after she had occupied a front seat at the opening performance of the show in which her daughter took part. Mrs. Laird had come to prevent her daughter from appearing in the show but changed her mind at the last minute in deference to Ruth's earnest pleadings.

Objected to Society. Miss Laird ran away from a girls' finishing school in Washington two years ago to study dancing in Paris. She objected to entering society as strongly as her parents objected to her going upon the stage. She returned a year ago and continued her dancing studies in New York.

After the performance last night Mrs. Laird said she would need "a few days to think it over" and admitted that perhaps it would best fit her daughter to continue with her dancing. Her only doubt was expressed in "but her father objected to the stage even more than I do." Miss Laird, who had not seen her mother in more than two years until they met here yesterday, said that she knew as soon as her mother saw her dancing and acting, and understood her work, she "would see things differently."

Which apparently, her mother did.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden start in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by all drug stores. Adv. Tues.

Mr. Stork Leaves Other Runners at Post in Big Race

The stork outdistanced all runners, in fact nearly left them all at the post Monday when Mrs. Robert Thompson of Breckenridge announced the birth of a son, Monday morning at 10 o'clock at a Wichita Falls hospital.

Mrs. Thompson was taken from the train early Monday, en route to Amarillo, and rushed to the hospital. The young husband was in Breckenridge when notified of the impending event. The grandmother, Mrs. R. Thompson and the new uncle, Jack Wheatley, were in Amarillo when the race started.

Of course, the little one had a beautiful layette, prepared weeks ago, but at the last minute, it was misplaced and its birthday clothes were all the baby had until a new wardrobe could be provided.

The first born is a lusty healthy baby and will soon resume the journey to Amarillo with the mother and father. The grandmother remained over for a visit with the new grandson and Mr. Wheatley is spending today in Vernon, visiting relatives. Mr. Wheatley was a former resident of this city and was born here.
